```
graph LR; A["it.unisa.diem.swe.group07.rubrica.controllers.CreaContattoController.handleAggiungiContatto"] --> D["it.unisa.diem.swe.group07.rubrica.controllers.AbstractController.mostraDialog"]; B["it.unisa.diem.swe.group07.rubrica.controllers.RubricaController.handleEliminaContatto"] --> D; C["it.unisa.diem.swe.group07.rubrica.controllers.RubricaController.handleExportContatto"] --> D;
```

The diagram illustrates a delegation pattern where three concrete controller methods (CreaContattoController.handleAggiungiContatto, RubricaController.handleEliminaContatto, and RubricaController.handleExportContatto) all delegate their execution to a single abstract controller method (AbstractController.mostraDialog). The arrows indicate the flow of control from the concrete methods to the abstract method.
